RAILROAD SERVICE

SINCE the railway service has been suspended, many of the people who are dependent upon it for their livelihood are in a state of great anxiety. The railway service is a very important one in this section of the country, and the suspension of it has caused a great deal of trouble. The railway service is a very important one in this section of the country, and the suspension of it has caused a great deal of trouble. The railway service is a very important one in this section of the country, and the suspension of it has caused a great deal of trouble.

It is not a sound principle to keep going at high pressure after the crash of orders received. In such cases everybody knows that the business is in a state of great anxiety. The railway service is a very important one in this section of the country, and the suspension of it has caused a great deal of trouble. The railway service is a very important one in this section of the country, and the suspension of it has caused a great deal of trouble.

RETRENCHMENT IMPERATIVE

SINCE the country is in a state of great anxiety, it is imperative that we take steps to reduce our expenses. The railway service is a very important one in this section of the country, and the suspension of it has caused a great deal of trouble. The railway service is a very important one in this section of the country, and the suspension of it has caused a great deal of trouble.

LEAGUE OF NATIONS UNPOPULAR

THE longer the proposed league of nations is discussed, the stronger grows the sentiment against it. The issue has resolved itself into a direct challenge to the protectionists of congress who want to see the American producer relieved from the handicap that would result from an open, sacrificial market where outside products would be thrown on the bargain counter. The tariff system is the time-honored heritage of the Republican party. It is not possible to maintain the present wage scale in the United States without the application of that policy. Millions of people in Europe who have been customers of the American manufacturer will soon, instead of entering our markets to buy of what we produce, come to sell what they make. We have the lowest tariff in the history of the country from the time of Washington down to the present hour. The average is 7 per cent, and this is to meet the incoming tide of foreign production. The Democrats have flayed the G. O. P. on this issue but it is predicted that, if they keep on the road they are traveling, the American people will be eating scantier food, using cheaper clothing and that everything in general must depreciate. The only salvation is a higher tariff.

RALLY, MICHIGAN!

ALl the power of the Wilson administration was put behind the Ford campaign for Senator from Michigan. If ever there was an improper use of power, it was manifested in that contest. To expose and offset that attempt of the national administration to dictate a senatorial election in their state, the Republicans of

Michigan spent considerable money. Money was never spent in a more important fight for the preservation of the purity of elections. The issue was whether White House dictation should be permitted to force upon the people of Michigan a senator who represented their views in no respect—was a poetist, a featherbedder in ignorance in political history, and a plant tool of the president. To save the honor and dignity of the state of Michigan called for heroic efforts. The men who made the effort are worthy of the highest commendation. The sovereignty of the people of Michigan has been asserted and attempted dictation from the White House has been rebuffed. If the attempt of Henry Ford to contest the election of Newberry has been instigated by the administration at Washington, another rebuff will be forthcoming in due time. President Wilson's solicitude for the "self-determination" of the people, the Czechs, Slovaks, and a lot of other small European peoples, should be extended to the people of Michigan. When he apologizes for his attempt to dictate a Michigan election, there will be more respect for his professed interest in subjugated people of Europe. In the meantime, it is up to the people of Michigan to demand that the senate very promptly send their choice for senator.

ELY SITUATION IS VERY UNCERTAIN CALL OFF STRIKE AT BUENOS AIRES

THE labor situation at Ely, owing to uncertainty of the copper market, presents some very serious problems according to Gov. Boyle and State Labor Commissioner Robert F. Cole, who passed through Reno Wednesday morning on their way to Carson City after spending several days in the copper camp adjusting the trouble between the railroad men employed in the Ruth and the company.

All differences have been worked satisfactorily for the time being and there is no trouble in the camp at present. There have been about 200 men laid off by the company and not a pound of ore has been sold for some time. Production is going on to a limited extent but how long this will continue is not known, according to Mr. Cole. Whether the company intends to close down entirely for a few months or whether a reduction of wages is contemplated had not been given out.

WOMAN EDUCATOR MADE TRUSTEE OF SCHOOLS

SACRAMENTO, Jan. 17. The governor has appointed Mrs. W. Phillips, of Porterville, trustee for the Fresno normal school.

BUENOS AIRES, Jan. 16.—At a conference with President Irigoyen yesterday the labor leaders agreed to call off all strikes in Argentina with the exception of the one which paralyzed shipping.

MINERAL COUNTY HAS HEAVYWEIGHT COMMISSIONERS

LONDON, Jan. 17.—The board of commissioners requires a decision will carry some weight for the people of that country claim that they have the weighted board of commissioners in the state if not in several states. Commissioner Miller weighs 200 pounds and is the smallest one in the lot. Commissioner Pugh weighs 250 pounds and is the largest one in the lot. Together they weigh 450 pounds.

SERVICE IN RUSSIA

Correspondence Associated Press. **MADRID, Dec. 5.**—The newspaper "Los Primeros" claims to have information from the Russian government that a new expedition of 10,000 men will start soon for the relief of the Russian army in the Caucasus.

Personal Announcement

To the Public:

I have opened in Reno, Nevada, an office fully equipped for the transaction of a general brokerage and investment business. To facilitate this business and properly serve the public, alliances have been made by me with the most responsible and representative brokerage, investment and bond houses of San Francisco, New York, Philadelphia and other eastern cities.

Twelve years ago I severed a protracted official connection with important interests in New York, and came to Nevada at the solicitation of the late Senator George S. Nixon. For two years I was connected with the Nixon National Bank, of Reno, and participated in the organization of both the Reno Clearing House Association and the Nevada State Bankers Association, and was officially connected with both. Following this I became a Director and Secretary and Treasurer of the Goldfield Consolidated Mines Company and many other mining companies of importance, and was the Vice-President of John S. Cook & Co., Bankers, of Goldfield, and of the Goldfield Tribune.

These business relations persisted for ten years and naturally have resulted in my becoming informed concerning general business, mining conditions, and investment possibilities within the State to a degree calculated to afford the utmost advantage.

I believe that I am unusually well equipped to serve the public in the purchase and sale of stocks and bonds, to supply information concerning mining conditions, and to give advice respecting investments, and facilitate the same. With the prospect of great improvement in all business conditions throughout the country, I am encouraged to believe that the mining interests of Nevada will share largely in the general prosperity.

It is my intention to conduct this business in a stable, safe and conservative manner, and to give customers the fullest protection, both pecuniary and moral. For instance, there are many holders of Liberty Bonds in Nevada who may wish to dispose of their holdings. With the arrangements I have made it is possible for me to secure for clients the full market value of their bonds based on the daily Stock Exchange quotations, together with the full face value of past due coupons, and the accrued interest on the bonds figured to the date of selling, less a nominal commission. Do not fail to consult me before disposing of your bonds to less advantage.

I invite from the public correspondence with regard to investments of all kinds. It will receive my prompt and earnest attention. Any business entrusted to me will be given careful and conscientious attention.

A. H. HOWE, Stock Broker,
 Member San Francisco Stock Exchange.
 341 North Center Street,
 Reno, Nevada.
